

## 10.5 REPORT AND PROPOSAL ON EURILCA RANKING LIST

---

### 10.5.2 REPORT

The project is mainly born talking with sailors and observing how the Europa Cup alone has lost interest in the assessment of the sailors.

That project is mainly useful for little countries or countries without a huge history in laser class where they have in place their very sophisticated rankings. That is a tool that gives an European ranking list but also a district ranking, and without any effort, just filling the entry forms and adding results from a common file. Gives the assessment each sailors, not only at the end of the year, but every month, showing his history career also in graphic way .

It was presented to sailors and coaches in meetings called at international events: Europa Cups SLO, ITA, GER, HUN; Laser 4.7 and Youth Worlds in Argentina, Europeans Standard and Radial in France, Worlds Standard& Radial in Germany, Laser 4.7 Europeans in Austria.

We can say that there was a very good feeling from the part of coaches and sailors : they assimilated this project as a good way to assess the best sailors.

We had many opportunities to collect suggestions that were already implemented or are ready to be implemented in to the system. We thanks Laszlo that gave us many advices.

### 10.5.3 PROPOSALS OF SOME IMPROVEMENTS TO THE EUROPA CUP NOR

#### **Add to the Europa Cup Eligibility those sentences:**

- Grade 0 events entries will be restricted to sailors having at least 1000 score point in Ranking List.
- When the number of entries will be restricted for organizational reasons, that restriction will be made through the ranking list score carried out from each sailor.

### 10.5.4 PROPOSALS OF SOME CHANGES TO THE EURILCA RANKING LIST BY LAW.

**Art 3.3.2** Eurolymp series races will be ranked as Grade 0

**Art 3.3.3** High grade Europa Cup, no more than 3 (4) events per year. An Europa Cup can be graded as 0 when the Organizing Committee assures a so good organization that for at least 2 years they have more than 80 sailors per fleet (or no less than 240 entries) and no less than 12 countries represented.

**Art 4** Add a factor, to be applied the national events score point calculation, finalized to balance the gap between big and little countries.

This factor will be linked to the number of members of the previous year of each district per each fleet.

**Art 5** Add the Sub region rankings. To do it we need to identify 4 or 5 groups of countries to be ranked in a "sub regional" ranking ladder, like:

- **Atlantic** (MOR, ESP, POR, GBR, IRL, ISL, NED, BEL, .... )
- **Baltic** (DEN, GER, SWE, NOR, POL, FIN, EST, LTU, LAT, BLR....)
- **Med West** (AND, FRA, ITA, MON, TUN, SLO, CRO, MNA, MDA, ...)
- **Med East – Black sea** (GRE, TUR, CYP, ISR, BUL, UKR, GEO, ....)
- **Central** (SUI, HUN, CZE, SVK, SRB, .... ?

#### **Add a new ranking that ranks the sailing clubs**

Each sailing club – identified by his town and name, will be ranked counting:

- a) The 3 best scores of its members, or
- b) The best score of each one member from the 7 fleets (STD, STD U21 (or Master), RAD M, RAD F, RAD F Under 21 (or Master), Laser 4,7 M Laser 4.7 F, or

And the sailing club with the biggest number of active Laser Sailor in the year.

**Art 8.2** Delete first and second sentence. Substitute with *"All the wild cards to promote the bridge to the upper fleet, from Radial to Standard Male, and from Laser 4.7 to Radial, will be applied at the first race that the sailor will sail in the upper fleet"*

#### 10.6 LASER IMS SYSTEM - RANKING LIST AND WEBSITE USE - TRAINING SESSION.

We will try to play the role of the sailor, the role of a District officer and the role of an Organizing Committee contact person.
